

## **Supply List for Warrenton Prep 2017-2018 School Year**

We are looking forward to a great year. Our program does the best we can do to give your kids everything they need at school. However, kids go through things pretty quickly and our materials wear and tear after a lot of good use! With a little help we can make the most of our supplies and have a fun year full of art projects, hands on learning experiences. Please don't feel pressured if this is asking too much; times are tough and this community is strong and helpful. Feel free to put these items in a bag and send them with your student. No need to name anything, as we are a sharing community!

Thank you!
